MINISTER'S MESSAGE...

This newsletter stands as a powerful platform, bringing together voices from across regions, highlighting key activities, and fostering stronger engagement among stakeholders. With each edition, we hope to illuminate stories of transformation, share valuable insights, and inspire collective action toward a brighter future.

Cont. to Page 02...

WE'RE EXCITED TO LAUNCH THE PHDT NEWSLETTER — COMMUNITY CANVAS

We are delighted to announce the launch of **Community Canvas**, a first-of-its-kind newsletter initiative by PHDT, created to spotlight and celebrate the collaborative efforts of all stakeholders working to uplift the plantation community.

This newsletter fulfills a long-standing need to better connect the plantation sector with the wider world. Community Canvas serves as a platform where stakeholders can share their activities, updates, and achievements — helping to keep the entire community informed, inspired, and engaged with the latest developments, insights, and innovations in the sector.

We warmly invite all stakeholders to contribute to this collective voice. If you have news, stories, or updates related to your work in the plantation community, please share them with us by emailing mme@phdt.lk or by reaching out to **Dhanushaka Daswatta** on **077-7147201**

www.phdt.org

PLANTATION HUMAN DEVELOPMENT TRUST

MINISTER'S MESSAGE CONT...

I would like to state that it is a top priority of the new government led by the President to develop the infrastructure of the estate community, especially the Malayagam community, and to provide them with the human rights that they have inherited but have been deprived of so far.

I am extremely happy that the initial work has already begun through the Ministry of Plantations and Community Infrastructure, making the dream of the estate community to own a house with their own land, which has been a dream until now, a reality. Construction of ten thousand houses, which will be built with financial support from the Indian Government and the new government, has now been able to commence. It is a matter of joy that during the recent discussion with the Indian High Commissioner, Hon. Santosh Jha, he expressed his willingness to provide full support to complete the work on those houses expeditiously and provide them to the estate community, and to further assist in developing the infrastructure of the estate community in the future. We plan to hand over 6,000 houses to the public this year, including those currently under construction, to provide housing to community displaced by disasters, and we are ready to complete work on another 4,000 houses in 2026.

The construction of 51 houses under the Kabaragala Housing Scheme has already begun for community who have been living in displacement camps with their children for years due to landslides. The program to provide smart classrooms to 60 plantation-related schools with assistance from the Indian government to enhance children's education is also a unique work that took place in this regard.

Special nutrition programs will also be implemented in the future to improve the nutrition of estate preschool children. It is also gratifying that all necessary arrangements are currently being made to renovate and provide houses to 1072 families in 75 line rooms under the Clean Sri Lanka program. The rights of the Malayagam plantation community are being continuously provided in line with the Hatton Declaration made by President Anura Kumara Dissanayake in Hatton to mark the 200th anniversary of the arrival of the Malayagam plantation community in this country. Instead of providing housing based on political affiliations, housing should be made available to all estate communities in need. I believe it is the grave responsibility of President Anura Kumara Dissanayake to ensure that the Malayagam estate community in our country has access to a prosperous nation and a better quality of life.

Samantha Vidyaratne

Hon. Minister - Ministry of Plantation and Community Infrastructure

DEPUTY MINISTER'S MESSAGE ...**Congratulations !**

I am pleased to provide my thoughts to the News Letter of the Plantation Human Development Trust (PHDT) which is playing an important role in the community development of the workers in the Malaiyaga plantation sector, especially in the development of infrastructure facilities. The Malaiyaga plantation community has been an excluded and marginalized community in this country. It is a very important responsibility of all of the citizens and state to improve the living and working conditions as well as the human rights of the Malaiyaga community. In the past, only physical

development has been taken place in the political agenda. But today's National People's Power (NPP) Government has given the responsibility to the Ministry of Plantation and Community Infrastructure to establish a systematic change among the members of the Malaiyaga community under the Policy of the current government none as "A Thriving Nation, A Beautiful Life". So we are traveling on this new journey. Significantly, the Plantation Human Development Trust has been involved in the implementation of infrastructure facilities in the plantation sector, steps have been taken to function under the new leadership today. Therefore, the PHDT is likely to be implemented our government's policy plan. So we are happy to work with them. I hope that the newsletter related to expression of information will continue to emerge.

Best Wishes

Sundaralingam Pradeep M.P

Hon. Deputy Minister - Ministry of Plantation & Community Infrastructure.

CHAIRMAN'S MESSAGE ...

"It is with great enthusiasm that we introduce **Community Canvas**, a newsletter dedicated to celebrating the voices, achievements, and aspirations of our community. This platform will serve as a bridge, connecting ideas, stories, and initiatives that shape our shared future.

Through **Community Canvas**, we reaffirm our commitment to fostering collaboration, innovation, and empowerment. We also invite plantations to share the impactful community development work they have undertaken, inspiring others to learn, adapt, and implement meaningful change in their own communities.

By exchanging insights and success stories, we can collectively build a stronger, more resilient future. We look forward to your contributions and engagement as we embark on this journey together."

B. K. Prabath Chandrakeerthi - Plantation Human Development Trust

DIRECTOR GENERAL'S MESSAGE ...

Congratulations on publishing the first-ever Community Service Newsletter!

This marks an incredible step toward uniting stakeholders in Sri Lanka's plantation industry by sharing the impactful community development activities they undertake. Our vision is to make this a platform for showcasing the tea world's commitment to community and inviting everyone to join in. Together, we can highlight the profound contributions of this remarkable 152-year-old industry and pave the way for even greater collaboration and recognition. I look forward to seeing the amazing stories and initiatives featured in future editions!

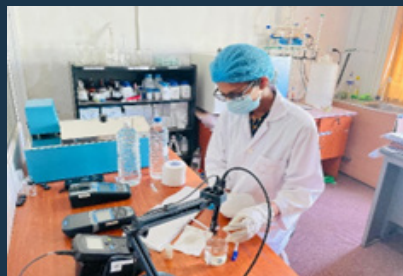

L. R. Perera - Plantation Human Development Trust

Water Testing Laboratory at PHDT office of Nuwara eliya

Article By: Thilini Deepashika Perera

PHDT Water testing Laboratory at Nuwara Eliya is equipped with state-of-the-art equipment and following strict protocols to provide high standard quality testing facilities to provide accurate and reliable results in order to ensure the safety and quality of water for consumption.

The laboratory services comprised of microbiological testing, including the detection of E. coli and coliform bacteria, which are critical indicators of water contamination by human excreta. Additionally, the laboratory perform physical-chemical tests to measure parameters such as pH, turbidity, and chemical contaminants, ensuring that the water meets the highest safety standards for drinking water.

CEO'S FORUM 2025...

Presentation on "Determinants of Nutrition"

Professor Pujitha Wickramasinghe delivered an insightful presentation highlighting the key factors influencing nutrition within the plantation sector, shedding light on critical areas for improvement.

Presentation on "Nutrition Survey in the Plantation Sector"

Professor Upul Senarath presented findings from a comprehensive nutrition survey conducted specifically for the plantation sector, providing valuable data to guide future health interventions.

Mr. Lal Perera, Director General of PHDT, provided an update on the ongoing initiatives and projects aimed at enhancing the well-being of plantation workers and their communities.

Mr. B.K. Prabath Chandrakeerthi, **PHDT Chairman**, addressed the gathering, sharing strategic insights and highlighting the PHDT's commitment to sustainable development and social equity within the sector.

The forum also included a prestigious award ceremony recognizing excellence:

Best CDC (child development center) Competition 2024: Acknowledging outstanding performance of CDC's.

Excellence in Social Development through EWHCS 2024: Recognizing significant contributions to social development through the EWHCS.

The CEO's Forum 2025 served as a pivotal platform for collaboration, knowledge sharing, and strategic planning, reaffirming PHDT's commitment to fostering sustainable development and improving the quality of life in the plantation sector of Sri Lanka.

HEALTH CLINICS AND HEALTH SCREENING...

The integration of health clinics with health screening programmes provides a comprehensive approach to preventive healthcare, offering a range of essential services in one location. Activities covered in this programme include dental checkups, eye screenings, well-women clinics, Breast & Oral cancer screenings, and assessments like Body Mass Index (BMI), random and fasting blood sugar checks, blood pressure monitoring, and cholesterol screenings.

Additionally, specialized health care for schoolchildren ensures that younger population receive necessary health assessments. This initiative, conducted with the support of the RDHS (Regional Director of Health Services) Kegalle Health Team, MOH (Medical Officer of Health) - Dehiovita, Ganthuna Hospital, and facilitated by the Plantation Human Development Trust (PHDT), ensures accessible, healthcare to the community, promoting early detection and better health outcomes for all.

TEA DIALOGUE - NGO FORUM

The “Tea Dialogue – NGO (Non governmental organization) Forum 2025,” organized by the Plantation Human Development Trust (PHDT), took place on January 29, 2025, at Grand 7 in Thalawathugoda. This significant event aimed to foster dialogue and collaboration among stakeholders in the plantation industry, including NGOs, industry experts, government officials. The forum served as a platform to discuss pressing issues and explore innovative solutions pertinent to the plantation sector.

The Flowing Speakers delivered the keynote Addresses. Mr. Lal Perera – Director General - PHDT, Mr. Yajith De Silva – Nucleus Foundation, Ms. Anusha – World Vision, Mr. Venmathirajah – Consultant - PHDT

The “Tea Dialogue – NGO Forum 2025” reflects PHDT’s commitment to empowering plantation communities and enhancing their quality of life. By bringing together diverse stakeholders, the forum seeks to address challenges and explore opportunities within the plantation sector, contributing to sustainable development and the well-being of the plantation community.

BREAST CANCER SCREENING & AWARENESS PROGRAMME

The Breast Cancer Screening and Awareness Programme was organized to commemorate World Cancer Day, celebrated on February 6th, with the aim of raising awareness about breast cancer and promoting early detection. Facilitated by the RDHS Badulla, this important initiative brought together healthcare professionals, including the Public Health Nursing Sister and Public Health Inspectors (PHIs), to provide valuable information and screenings to the community. The programme focused on educating individuals, particularly women, about the risks of breast cancer, the importance of regular self-exams, and the benefits of early detection through screenings like mammograms.

By offering these services and raising awareness, the programme aimed to empower individuals to take proactive steps toward their health and well-being. The collaborative effort emphasized the significance of preventive care in reducing breast cancer mortality rates, ultimately encouraging people to seek timely medical attention and support. Through this initiative, the RDHS Badulla and its partners contributed to fostering a community that is more informed and proactive in its approach to cancer prevention and treatment.

EWHCS AWARDS

Annual Estate worker Housing corporative awards were also held at the CEO’s forum on the 10/03/2025 and the selections were made on thier performances, savings, Comunity engagement and development etc..

The following estates in the respective regions awarded for best EWHCS.

Pettiyagala Estate
Rathnapura Region

Elpitiya Estate
Galle Region

Spring Valley Estate
Badulla Region

Udapolla Estate
Kegalle Region

Hellbode Estate
Kandy Region

WOMEN'S DAY CELEBRATION HATTON REGION. 14-03-2025

Article By: Mr. C. U. B. Ranasinghe

Women's Day Celebration – Inter Plantations Short Film Competition organized by Plantation Human Development Trust – Hatton.

On 14th March 2025, in honour of International Women's Day, we organized an exciting and unique event — the Inter-Plantations Short Film Competition. The morning session was dedicated to the selection process, where a panel of distinguished judges reviewed the submitted films. In the afternoon, we held the awarding ceremony, followed by a screening of the films. The awarding ceremony was graced by Mr. Dilum Pathirana, Director

of Plantations/Tea of Kelani valley Plantations, who presented the awards. Representatives from each RPC, along with their health and welfare staff and community members, also joined us for the celebration. A total of six films were screened, each conveying powerful messages with variety of themes and the following awards were presented:

- Best Screenplay Award: Bogawana Estate
- Best Storytelling Award: Strathdhon Estate
- Best Inspirational Message Award: Kirkoswald Estate for their film "Leela"
- Third Place: Fordyce Estate for their film "Mugavari"
- Second Place: Strathdhon Estate for their film "Sudar"
- First Place and Best Short Film: Bogawana Estate for their Documentary

"A special thank you to the CEOs/ DCEO of RPCs for nominating estates and encouraging their participation for the competition, as well for their invaluable support in making this event a success". While the competition showcased the remarkable talent of our RPCs, we are proud of each estate's effort and creativity. Every film displayed not only great skills but also a dedication to highlighting the strength and resilience of women in various contexts. We look forward to continuing such initiatives and further empowering our communities through the arts.

WOMEN'S DAY CELEBRATION NUWARA ELIYA REGION 15-03-2025

Women's Day is a global celebration that recognizes the achievements, contributions, and resilience of women from all walks of life. In the modern world, women are achieving as equal as men in every field. However, the work burden has increased to the women when it comes to balance the career and caring of the family. Most of the working women are finding difficulties to take care of their health and wellbeing. Therefore, Health and Screening camps for women are crucial for promoting health and wellbeing, especially in underserved and difficult to reach areas, by providing access to essential healthcare services, education, and resources free of charge.

Plantation industry is a significant industry consisted with majority of women employees. Women in plantation sector play a major role as a key-resources to earn and act as a bread-winner to their families.

Cont. to Page 07...

Cont. from Page 06...

Article By: C. Devaranjan

The plantation sector women involved directly and indirectly to the operation as Pluckers, Plantation Family Welfare Officers (PFWOs), Child Development Officers (CDOs), Factory Workers, office staff, etc. PFWOs is the role can assume a wide variety of roles in connecting community with estate management, public services, health care, child care, social development and other relevant services. CDOs are playing the role of take care of the children and closely monitoring their overall development. These women play a crucial role in the economic and social fabric of their communities, often balancing demanding work with family responsibilities while paying least attention to their own health and wellbeing. As a result, they often neglect their own health and well-being. As Plantation Human Development Trust (PHDT) identified these areas followed by critical analysis, planned to initiate a comprehensive health screening and educational camps to support the female employees of the estate to make them involve on certain health screening and gaining knowledge on health related matters.

For women working in plantations, the Women's Day celebration holds even greater significance. In the year of 2025, PHDT commemorated the International Women's Day with the Estate health and welfare staff. As part of this commitment, on March 15, 2025, a comprehensive health camp was conducted exclusively for plantation women staff a to screen and ensure their health in collaboration with the Regional Director of Health

Services (RDHS) officials. PHDT has requested involvement of few other stakeholders (PALM & FPA) to be the part of this course of act to witness the success of this initiative.

WOMEN'S DAY CELEBRATION KEGALLE REGION 07-03-2025

Article By: S. T. K. R. Deshapriya

The Plantation Human Development Trust - Kegalle Region hosted a vibrant Women's Day Celebration and Arts Competition on March 7, 2025, at the Dehiowita Pradeshiya Sabha Auditorium. The event, centered around the theme "Dreams," brought together community leaders, healthcare professionals, estate management, and talented participants for a day of recognition and artistic celebration.

WOMEN'S DAY CELEBRATION GALLE REGION 06-03-2025

Article By: J. C. Weeraseskara

International Womens' day falls on 08th March every year. The PHDT Galle has arranged programmes to recognize the Estate Health and Welfare staff of the Plantations that come within the purview of PHDT Galle covering three Districts

The following activities were carried out

- NCD Clinic
- Fasting Blood Sugar
- Fasting Urine Sugar
- Hypertension
- Awareness Programme on NCD and the importance of Balanced diet
- Awareness Programme on Stress Management
- BMI

Above programmes were conducted with the assistance of the Doctors from the Health Department from Southern Province. At the end of the programme souvenirs were given to the participants.

WOMEN'S DAY CELEBRATION RATNAPURA REGION 12-03-2025

Article By: R. V. A. N. P. Wijeratne

Under the purview of PHDT Ratnapura Region, Kiribathgala Estate marked International Women's Day with a vibrant celebration with the participation of PHDT Ratnapura Regional Staff.

This year's national theme, "Strong she will be a pathway to build a sustainable future," highlighted the vital role of women in shaping a better tomorrow.

The event showcased the remarkable talents of women in various sectors, recognizing their contributions and achievements. Those who excelled were appreciated, felicitated, and presented with gifts as a token of gratitude for their dedication and hard work.

Event Highlights:

- Inspirational Talks – Stories of strength and resilience from women in the community
- Skills & Empowerment Workshop – Training and discussions on self-development
- Cultural Performances – Showcasing talents from within the community
- Fun Activities & Games – A day filled with joy, laughter, and togetherness
- Token of Appreciation – Special gifts for our women workforce

WOMEN'S DAY CELEBRATION KANDY REGION 14-03-2025

Article By: L. Abeywardena

Women's Day celebrations were held at Stellenberg Estate on March 14, 2025. The event focused on honoring and celebrating the achievements and contributions of women in the community.

MEDICAL CAMP FOR 250 WOMEN AT GLENALPHIN ESTATE TO COMMEMORATE INTERNATIONAL WOMEN'S DAY - BADULLA REGION 25-03-2025

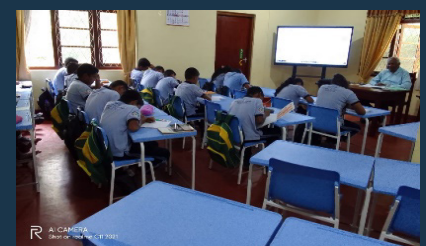

On March 25, 2025, a special medical camp was held at Glenalphin Estate to commemorate International Women's Day, providing essential healthcare services to 250 women. The event was coordinated by PHDT in partnership with the District Secretariat, Divisional Secretariat, Regional Director of Health Services (RDHS),

and Medical Officer of Health (MOH) offices. The program was generously funded by the Indian High Commission, with the honorable Indian Assistant High Commissioner, Ms. V.S. Saranya, attending as the chief guest.

Prominent officials, including Mr. Panduka Prabath, District Secretary – Badulla, Dr. Panditharathna, Regional Director of Health Services – Badulla, Dr. Gawarammana, MOH – Badulla, Mr. A.S.B. Ekanayake, Regional Director – PHDT Badulla, Mr. Pilapitiya, Senior Manager – Glenalphin Estate, and other officers from respective authorities were also present.

The Glenalphin Estate Management extended its fullest cooperation, ensuring the event was organized smoothly for the benefit of the community and the organizers.

"RAY OF HOPE" INFORMAL ENGLISH IMPLEMENTED IN THE PLANTATION SECTOR

Cont. to Page 09...

Cont. from Page 08...

Article By: D. Venmathirajah

The Ray of Hope English classes for plantation and tea smallholder communities were initiated following our Director General's study tour to India's plantations. During this visit, the idea emerged to modernize English education for children in plantations by incorporating Smart Board technology instead of traditional blackboards.

The Plantation Human Development Trust (PHDT) developed this model to provide informal English language lessons to children in Regional Plantation Companies (RPCs) and tea smallholder communities. This initiative aims to improve students' listening, writing, and speaking skills while fostering personal development.

Although the literacy rate among plantation children has risen from 40% in 1992 to 80% today, English literacy remains low, at only 3-4%.

In collaboration with the CTTCT, the charitable arm of the Ceylon Tea Traders Association (CTTA), a pilot project was launched at three centers:

- PHDT Regional Office – Galle
- PHDT Regional Office – Ratnapura
- Craighead Estate, Kahawatta Plantations – Kandy

Currently, 105 students from Grades 1–8 are enrolled in these programs.

Since June 2024, PHDT has been managing and monitoring these centers. The program has gained significant popularity, benefiting the children attending these classes. Regular assessments are conducted by teachers with the support of regional directors, staff, and the PHDT head office.

“RAY OF HOPE” AT CRAIGHEAD ESTATE KANDY REGION

Article By: L. Abeywardena

CTTCT and PHDT collaborated to start a project called Ray of HOPE Smart Class Room for a period of one year for 35 children of 6,7,8 grades to develop the English knowledge of the plantation children and to develop their knowledge. Accordingly, we have selected and started this project on Craighead Estate belonging to Kahawatta Plantation Company, among the 06 plantation companies in our region. For this, cost of approximately 1,528,005.00 rupees have been spent on equipment and another 104,010.00 monthly acquired on refreshment, Teacher's salary etc..

We appreciate the support of MJF charity Foundation and KPL for the generous contribution around 01Mn for the facilities.

CLEAN SRI LANKA PA PROJECT

Article By: Dilan Senanayaka

The government of Sri Lanka has launched the above programme nation wide incorporating multiple sectors

The PHDT was instrumental in collaborating with the Planters Association on an request made by the Ministry of Plantation & Infrastructure to carry forward with the Clean Sri Lanka Programme on 73 Estates belong in to the RPCs.

Under this programme, the RPCs Cleaned the surrounding of the selected line rooms and attending to the minor repairs and white / color washing and also providing mail addresses to these occupants of the line rooms.

This exercise was funded and undertaken exclusively by the RPCs.

AWARENESS PROGRAM ON WATER SAFETY AND HYGIENE (WASSIP)

Article By: Fathima Asma Haniffa

The purpose of this program is to educate students about water safety, hygiene practices, and the importance of WASH (Water, Sanitation, and Hygiene) principles to promote health and well-being. By addressing these topics, we aim to empower students to become ambassadors of water conservation and hygiene in their communities.

The Following topics were discussed:

- Introduction to Water Safety
- Hygiene Practices
- WASH Principles and Their Significance
- Water Safety and Hygiene Measures in Daily Life

This program is designed to be informative, ensuring that students leave with a solid understanding of water safety and hygiene. The goal is to equip them with knowledge they can apply in their own lives to improve personal health and contribute to the well-being of their communities.

ENHANCING LIVING STANDARDS IN ESTATE SECTORS ACROSS SEVEN REGIONS

The PHDT Engineering Division has completed a wide range of estate housing and infrastructure development activities in 2024, including water projects to provide safe drinking water, electricity connections for individual housing units, and re-roofing programs for severely damaged and dilapidated line rooms. These initiatives have significantly contributed to enhancing the living standards of estate workers across seven regions: Galle, Ratnapura, Badulla, Kegalle, Kandy, Nuwara Eliya, and Hatton.

HOUSING CONSTRUCTION AND INFRASTRUCTURE DEVELOPMENT

Article By: T. P. Wichramarachchi

Throughout 2024, our team has been actively involved in completing the balance work of partially constructed housing units and upgrading

existing and new infrastructure to improve the quality of life for estate workers and their families. Due to the COVID-19 pandemic, which affected Sri Lanka from mid-2020 to the end of 2022, several projects involving 1,009 housing units came to a standstill. Following the subsequent economic crisis, 329 housing units were approved for completion by the Ministry of Plantation and Community Infrastructure, with an allocation of 307 million rupees and additional 94.3 million rupees for housing infrastructure water.

Additionally, 397 housing units remain to be completed, with plans to finalize these projects in 2025. An allocation of 518.6 million rupees has been proposed for this purpose. In addition to housing construction, we have undertaken several re-roofing projects to restore line rooms severely damaged by fire, wind, or age-related deterioration. These efforts have ensured safer and more resilient living conditions for affected families.

Under the 2024 re-roofing program, 135 units of damaged and dilapidated line rooms were re-roofed, utilizing 11.7 million rupees from Ministry funds and 3.7 million rupees contributed by Regional Plantation Companies.

MAJOR WATER SUPPLY PROJECTS

Cont. to Page 11...

Cont. from Page 10...

A significant highlight of our 2024 initiatives was the implementation of large-scale water supply projects under the Water and Sanitation Improvement Project (WaSSIP) in Nuwara Eliya, Hatton, Badulla, and Ratnapura. These projects have been instrumental in providing clean, safe, and sustainable water access to estate communities, addressing longstanding issues related to water scarcity and sanitation.

Under Phase - I of the World Bank-funded program, 4,587 households were covered, with an expenditure of 916.4 million rupees. In Phase - II, 2,760 households were covered, with an expenditure of 1,402.5 million rupees. Furthermore, we successfully renovated 13 medium-scale water supply projects in estate sectors under Phase - II, funded by World Vision Lanka, with an investment of nearly 33 million rupees. These projects have now been fully handed over to the estate community through respective Estate Worker Housing Cooperative Societies (EWHCS), enhancing access to safe drinking water and better sanitation facilities.

COMMITMENT TO EXCELLENCE

As we reflect on a year of remarkable achievements, the PHDT Engineering Division remains committed to continuing its mission of developing sustainable infrastructure and housing solutions for estate communities. Our efforts have contributed to the overall well-being of estate workers and their families, and we look forward to furthering these initiatives in the coming years.

We extend our heartfelt gratitude to our partners, stakeholders, and dedicated engineering teams for their relentless efforts in making these projects a success. Together, we strive to build a brighter future for the estate sector in Sri Lanka.

SOUTHERN COTTAGE

Accommodation available with modern facilities in Galle at the PHDT Regional office premises. (With hot water, cooking facilities and AC).

Please contact the Regional Director **Mr. Chandana Weerasekara** 0777 757745

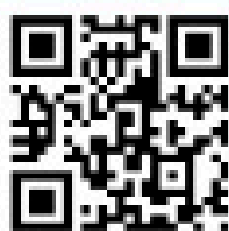

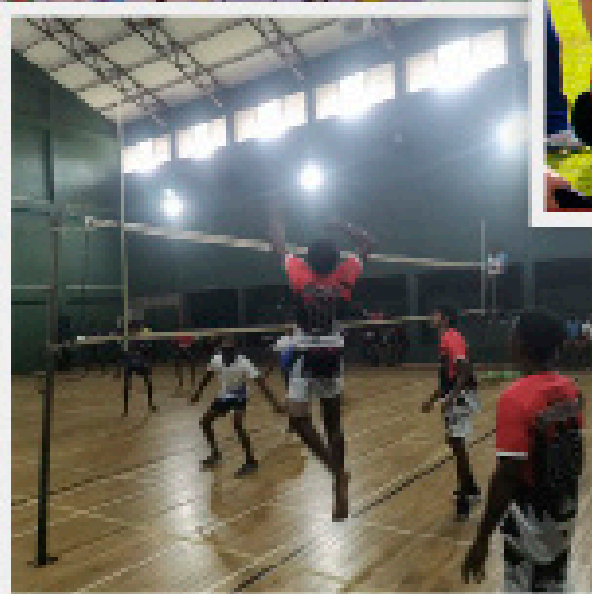

UPCOMING EVENTS....

- Stakeholders' Forum & launching of **Tea Dialogue bulletin** 16-05-2025
- PHDT Cricket Tournament 13-06-2025
- Clean Sri Lanka Ministry project
- Implementation of distribution of cook stove project
- Conservesion of watersheds with Rainforest Alliance
- Capacity-building training for PHDT Staff at Radella, Nuwara Eliya. 14-06-2025
